12.5 Terms and Conditions

**Condition Not
Applicable**

Term and Conditions 5b

5. In order to minimize the likelihood of incidental take through implementation of ecosystem restoration features (see Table 8-2 of the 2001 BA), the Corps shall:
- b. To the extent practicable, maintain dredge draghead and/or cutterhead at or below the substrate surface during ecosystem restoration construction activities that require dredging activities.

Action Plan: This is a normal practice during dredge operations. Contracts will be shared with NOAA Fisheries and USFWS to ensure compliance

Schedule: To be developed for each restoration project construction contract.
